I. READING

Beth is eleven and a half and she goes to Backwell Secondary School in Bristol, in the UK. She's in Year 7. Her favourite subjects are English and History. She doesn't like Maths very much! She likes studying foreign languages. She has French and Russian at school. Beth starts school at 8.45 in the morning and she has four lessons before lunch. At 12.45 she has lunch in the school canteen. School starts again at 1.30. There are two lessons in the afternoon. School finishes at 3.30 and after school Beth goes to Homework Club. On Monday and Wednesday she plays basketball after Homework Club. Shane is Australian. He's twelve and he lives on a big sheep farm. He doesn't go to school. He has lessons at home. He talks to his teacher and school friends on the radio. He can see them on a webcam. Lessons start at 9.30 and they finish at 12.00. After lunch he has lessons again, from 2.00 to 4.30. He sends his homework to his teacher by email. His favourite subject is Science. He likes Maths too, but he doesn't like English very much. He hates Spanish. After lessons he works on the farm with his father or he plays cricket with his sister. Every summer he goes to 'real' school for a week. Then he can meet all his school friends. There's a party and a sports day. It's great.

from: B.Abbis, I. Freebairn: „Sky High” - Longman
