I. READING

The capital city of the United Kingdom is London. It's the biggest city in Europe. About 8 million people live there. 30% were not born in the UK. London lies on the River Thames. There are 33 bridges over the river and 4 tunnels under it.

27 million tourists visit London every year. It is the world's most popular tourist destination.

They come to London from all over the world to visit its attractions:

- The Houses of Parliament have 1,100 rooms and 5 kilometres of corridors. Tourists admire Big Ben, which isn't the name of the famous clock but the bell inside the tower. The clock is the biggest in the UK. Its diameter is 7.5 metres. The hour hand is 2.7 metres long.

- The London Eye is a huge wheel situated next to the river, opposite the Houses of Parliament. It's 136 metres high and the views from the top are fantastic. One ride lasts half an hour.

- The Tower of London is visited by most tourists. It was built in the 11th century. It was a fortress, a palace and a prison. Now it's a museum, where you can admire the famous crown jewels. Not far from the Tower, there is Tower Bridge, which was built 120 years ago.

- At Greenwich there are famous old ships and a line on the ground which marks 0° longitude. There you can stand with one foot in the eastern hemisphere and the other in the western hemisphere.

- Foreign tourists love visiting Madame Tussaud's, a museum where they can see wax models of famous people from the past to the present day.

Sports lovers can watch a football match at the stadium of one of the famous clubs: Arsenal, Chelsea, Tottenham, Fulham or West Ham United. They can also see the Wimbledon tennis tournament and take part in the London Marathon together with 50,000 runners. The next Olympic Games will be held in London in 2012.

There are 24 universities and colleges in London with 350,000 students.

The city has a fantastic underground system, which is the oldest in the world. London is also famous for its black old-fashioned taxis and red double-decker buses.
