I. READING

In July 1969 three American astronauts: Edwin Aldrin, Neil Armstrong and Michael Collins started their famous space flight towards the Moon by Apollo 11 spaceship. It neared the moon at the speed of 6500 kilometres an hour. Then Aldrin and Armstrong went into the landing spacecraft named the Eagle. Aldrin was to wait in orbit. On Earth people held their breaths. Humans were landing on the Moon! About 500 million people all over the world were watching TV when the Eagle landed. After six hours of preparation the astronauts opened the door. Neil Armstrong was the first man to step down onto the moon's surface. He said: "That is one small step for a man. One giant leap for mankind." It happened on 21 July.

The astronauts spent more than 21 hours on the moon doing various experiments. They collected 30 kilograms of rock and soil. They left an American flag and some scientific equipment. They were able to move easily and quickly because the moon's gravity is six times smaller than the Earth's.

1. Who stepped on the moon as the second?
   a) Edwin Aldrin
   b) Neil Armstrong
   c) Michael Collins
   d) all of them

2. How much time did the astronauts spend on the moon's surface?
   a) more than 21 hours
