I. READING
It was Wednesday 10th April, 1912. Joshua arrived at Southampton with his mother. They were on their way to New York to meet his father. Joshua and his mother went on board of the luxury passenger ship, the Titanic. It was the biggest ship that had ever been built. The Titanic started its first voyage from Southampton to New York at 12 o'clock. Joshua and his mother couldn't find their cabin at first. The ship was like a huge hotel. There were a thousand six hundred passengers and seven hundred crew members on the new ship and everyone was lost! Joshua and his mother found their cabin after an hour. There were hundreds of cabins, six restaurants, a library, a hairdresser's, a gym, and even a swimming pool. It was the fourth night on board. Joshua was sleeping when a loud noise woke him. He could hear people in the corridor.
'I saw a huge iceberg.'
'We're lucky that the ship can't sink.'
Suddenly there was another loud noise. The cabin moved and Joshua fell onto the floor. At 11.40 p.m. on 14th April the ship collided with an iceberg. The iceberg tore a huge hole in the hull and water immediately poured inside and the ship began to lean. Joshua's mother opened the door. Lots of people were running towards the stairs and they followed them. There was a huge crowd on deck and everyone was trying to climb into the lifeboats, but there wasn't enough room for everybody. The captain ordered: 'Women and children first!'. Joshua and his mother climbed into a lifeboat. They looked back. The Titanic was sinking. A lot of people jumped into the freezing water. The Carpathia sank at 2.20 a.m. At dawn the Carpathia picked up about seven hundred survivors from the lifeboats. The crew of the Carpathia pulled Joshua into the ship in a large bag. He was freezing and scared, but he was lucky - Joshua and his mother survived.

5. The crew of the Carpathia ........................................
   a) were freezing and scared
   b) pulled Joshua into the ship in a bag
   c) numbered 700 people
